EDUCATION
Springboard   Los Angeles, CA
Software Engineering Career Track   Winter 2021

East Los Angeles College   Monterey Park, CA
Associates of Science: Engineering Design   Fall 2020

PROJECT WORK
Carbe Diem *Calorie and Nutrient Tracker*   carbe-diem.herokuapp.com/
- Designed and developed a database driven website using the Edamam Food Data API
- Used Python and Flask to handle routes and health calculations.
- Implemented both Python and JavaScript libraries to handle authentication, login, and data visualization.
- Database created with PostgreSQL and handled with models from SQL Alchemy ORM.

Hack-or-Snooze *Y-Combinator Hackernews Clone*   alexm323.github.io/hackOrSnooze/
- Developed a Hacker News clone using an API called Hack-or-Snooze using JavaScript and jQuery.
- Allow a user to create and submit stories that are immediately displayed on the DOM.
- Ability to favorite and delete stories that a user has created. All stories submitted by users are gathered and displayed from the API using axios and jQuery.

EXPERIENCE

Springboard   Los Angeles, CA
